The map below shows the area included in Phase 2 consultation - this is marked with a green line.

If a road where the majority is **not** in favour has been included in the Phase 2 consultation area, this is to take into account practical considerations (e.g. an area with logical boundaries) or on traffic grounds (e.g. to exclude a road in the midst of a CPZ area would create excessive parking pressures on that road).

**Results based on responses received from residents and traders within the smaller, Phase 2 consultation area**
