

Location of Grit Bins in Haringey

There are many grit bins throughout the borough in areas not normally subject to mechanical treatment, at hilly, exposed locations and potentially dangerous road junctions.

Grit bins are checked and topped up each October and throughout the winter maintenance period which runs from 1 November to 31 March.

Suggestions for new sites are welcomed. If you would like to suggest the placement of a new grit bin, please contact the Environmental Resources team on 020 8489 5637. Requests for the provision of a grit bin are assessed and judged against a criteria. They are only provided if full justification can be shown.

Below is the location of grit bins around the borough.
