Integrated Housing Board

Who are we?

The Integrated Housing Board is made up of partners from Haringey Council, the Primary Care and Mental Health trust and voluntary and community agencies.

We aim to ensure that effective partnership working arrangements are put in place across agencies. We do this by bringing together partners across all housing tenures at least four times a year.

1. That the IHB will be chaired by the Executive Committee Member for Housing and will bring together senior managers and representatives who operate at a senior and leadership level in their respective organisation.
2. The IBH will co-ordinate the LSP and Council work on key strategic matters.
3. That the membership will include representatives from each organisation on the Board
