

Appendix 1: Local Information Requirements Consultation Responses

Respondent Name	Respondent Org (if applicable)	Comment	Haringey Response
Lisa Walduck	Natural England	We do not have any detailed comments to make with regards to this charter. However we would like to point out that we are encouraged by the inclusion of the Partner Organisation Commitment, and would welcome the opportunity to be involved in pre-application discussions with the Council and with developers where this is deemed appropriate.	Haringey supports this comment.
Elizabeth Lightbourne	Environment Agency	It is not our standard practice to sign up to these documents with LPAs. However we are committed to being involved in pre-application discussions and...are happy to meet with your Council Officers and developers for any pre-application discussions on large scale developments.	Haringey supports this comment.
Andrew Snape & Eric Childs	Metropolitan Police	With regard to the Charter, we would like to be consulted at an early stage on all major projects and would relish the opportunity to give our advice in a wider forum to partners and any interested party. As a development cycle progresses, it becomes increasingly hard to include necessary security measures or to change elements of a design that could become crime generators. We would welcome the chance to work in partnership to deliver high quality new developments for the well-being of existing and future communities.	Haringey supports this comment.
