

Securing the Future

Haringey's Primary Strategy: Summary for children and families **2008 - 2020**

Primary Strategy

Our vision

We want all children and young people to be happy, healthy and safe with a bright future.

If you are 5-11 years old, you are one of 21,000 children in Haringey. You are our future. We want all of you to have the best opportunities and help to achieve your ambitions as you go through your school life.

The Primary Strategy sets out the plans for securing the future for you and other children over the next twelve years. Many of you told us what you would like in your schools and we have done our best to meet your ideas and expectations.

Schools in Haringey are already places where you can learn a lot, play, relax with friends, paint, draw, dance, sing and have teachers and staff who will help you. We want to make them even better. So that we can focus on the important things we have developed a strategy, a plan setting out objectives. The strategy is divided into five parts called principles and each one has a key message.

Primary School

Principle 1

We want you to enjoy your learning and make good progress.

Over the next twelve years we will focus on:

- Helping you to achieve your best at all stages and across all school subjects
- Making the learning environment better to meet your learning needs
- Making learning even more enjoyable so that you want to go to school and everyone can be included

Principle 2

Schools are at the centre of the community and we want them to be open longer hours so that more people have opportunities to learn as well as you and at the same time make sure that you are safe.

Over the next twelve years we will focus on:

- Giving you more access to your school; the grounds; the sports facilities; special equipment and computers before school starts, after school and in the school holidays
- Making your school even more welcoming and attractive and separating your learning space from that for other people
- Putting services like health and support together at or near to your school

Primary School

Principle 3

We want all children and their families to better understand how to be healthy and safe and able to get help when they need it.

Over the next twelve years we will focus on:

- Making sure that whilst you are at school you can get healthy food and learn how to keep healthy
- Making sure that you have space indoors and outdoors for exercise, relaxing and learning
- Making sure you get extra help if you need it
- Improving your health through access to health checks and learning about exercise and healthy eating
- Helping you to know more about the environment and how we all can save energy

Principle 4

We want to continue to provide the best opportunities for staff in our schools so that your learning is even better.

Over the next twelve years we will focus on:

- Making sure we have the right training and development for staff and governors so that they get even better at working for you, your families and the community
- We will also make schools better places to work in so that staff have space to work and plan
- We would like you to be able to learn more about people and their lives in other countries and we will train and support staff to do this

Principle 5

We will make sure that computers and other types of technology are available to help you learn and be available for your families and the community to use.

Over the next twelve years we will focus on:

- Making sure you can learn to use whiteboards, personal computer devices and many other new technologies at primary school
- Access to the world wide web being available to you without having to go to the ICT suite
- Making sure that school buildings will be able to meet the needs for ICT in the future
- Safety on the internet and helping you and your families to use the world wide web safely and securely

Finally...

We hope you've enjoyed this taste of things we'd like to make sure happen in your primary school in the future. Please think about this and let us know if you have any other ideas - we *are* listening.

For more information telephone the Head of Primary and Special School Standards on 020 8489 5377.

Thank you to the primary schools of Haringey who participated in the Haringey Art competition. A selection of images from winners, runners up and other entrants has been included in this document. Unfortunately we were unable to show all the winning images due to copyright restrictions on some of the collages that used previously published materials.

The Primary Strategy 2008-2020 Summary Version

One tonne of recycled paper saves 17 trees,
32,000 litres of water, and enough electricity
to heat an average house for 6 months
