1. Two or more alternative proposals in respect of the same site, on behalf of the same applicant made on the same date would have the fee calculated as follows:

Calculate the fee for each alternative proposal, take the highest and then add half the fee(s) in respect of other application(s).

2. All floor areas are gross and should be externally measured. Where areas exceed 75m² or multiples thereof, any excess shall be treated as being a further 75m².
3. Mixed developments where an application relates to the erection of buildings partly for residential use and partly for other uses, the fee is calculated by adding the amount payable for the number of dwelling-houses to the amount for floorspace.

Important:

An application will not be valid until the correct fee is received and no progress on the application will be made. If a fee is not received or is incorrect we will write and tell you.

The Council has no discretion to waive or vary fees.

Refunds

Any fee paid will only be refunded when:

- an application is rejected as being invalid and is not proceeded with by the applicant.
- more than the correct fee was paid.
- the fee was paid in respect of an application where a fee is not required.

Fees will not be refunded where an application has been withdrawn or refused.

What is the Government's planning guarantee?

On the 1st of October 2013 the Government introduced a planning guarantee – this sets out local planning authorities may refund the fees paid on applications received after this date where a decision has not been made within 26 weeks of the date of receipt of a valid application except where there has been written agreement to the extension of time.
