

Dear Sir/Madam,

I strongly oppose to Pinkham Way being described as an 'established industrial site'. I've lived in the area for over six years and I think Pinkham Ways green space should be respected, the site has a wealth of wildlife habitats that should be continually managed for wildlife interest, allotments and a nature reserve centre could be introduced, this would attract local schools (children are fascinated by wildlife) and it would be wonderful for Muswell Hill residents and other local areas to have a nature reserve on our doorstep. We want to encourage wildlife not drive it away, nature is important and it improves our mental and physical health considerably.

I support the modification to SP8 made by the Inspector. However, it would be helpful if your report reflected the evidence given at the hearing by the Council, that the Pinkham Way site is not an established industrial site. I believe a statement to this effect would remove ambiguity as to the status of this Employment Land site.

I would welcome a statement in your report that the site is open space and that it is not brownfield/previously developed land because it is excluded from this definition under the London Plan and the NPPF definitions of previously developed land. Evidence was produced to support that at the inquiry which was not disputed by the Council.

I consider that the protection of the SINC status of the Pinkham Way site has been weakened. In the UDP it stated that development would be allowed on the site **provided there was no impact on the nature conservation value of the site**. This direct proviso has been delinked in the new strategy and reworded.

I would like to see unambiguous protection of SINCS within the Biodiversity Policy (rather than in the narrative to this policy). For example, in the policy box, after the statement "All development shall protect and improve sites of biodiversity and nature conservation etc, add a fourth bullet point to the effect:

□

"The Council will not permit development on SINCS and LNRs unless there are exceptional circumstances and where the importance of any development coming forward outweighs the nature conservation value of the site."

The rest of the modification, ie "in such circumstances" etc to remain in 6.3.23 as narrative.

I would like to suggest one further minor amendment to paragraph 6.3.23 – that the last sentence reads "SINCS within the borough include Bluebell Wood, Muswell Hill Golf Course, Former Friern Barnet Sewage Works (Pinkham Way), Hollickwood Park, Tottenham Cemetery and Bruce Castle Park." I suggest this because these first four SINCS are directly geographically linked to each other and it would be appropriate to mention them together. Dropping any one of them seems inappropriate.

Proposal Maps 7, 16 and 24 need changing to reflect your decision not to permit the redesignation to LSIS.

Many thanks.
Helen Jones
