To whom it may concern,

RE: Local Plan: Site Allocations – Development Plan Document

I am responding to the Site Allocations – Development Plan Document in my capacity as Assembly Member for Enfield and Haringey.

I welcome the commitment for future investment in the area and appreciate the great need for housing in London. The state of housing and the rented sector are in real crisis and needs to be addressed. However, in doing so great consideration must be taken of the current and future infrastructure and the impact that any future development will have on this, and there must be strong consultation and engagement with residents.

I have for example been contacted by residents in the Harringay ward area who are concerned about the already straining infrastructure, including congestion, schools health facilities and air quality.

When considering these sites, it is incumbent for you to ensure that such infrastructure provision is obtained. Can you ensure myself and local residents that this will be done?

Yours sincerely

Joanne McCartney AM
London Assembly Member for Enfield and Haringey
