

Objective 3:

More people will be cycling, walking and using public transport

Outcome Indicator:

Proportion of people who travel by bicycle in London where trip origin is in Haringey

Target:

5% by 2018

What does the data say?

The 2015/16 score of 3% is the joint 10th highest of all London Boroughs and unchanged from 2014/15, just outside of London's top quartile (4% threshold).

The Council is promoting cycling through a substantial cycle training programme and continuing our investment in cycle parking across the borough.

The full details of the Smarter Travel programme and the wider Highways works which include specific cycle schemes is available on the council's website.
