

Preparation Prior to Treatment

Bed Bugs

- Strip all beds of all linen and wash at a high temperature
- Vacuum entire premises very thoroughly and dispose of the Hoover bag externally
- Ensure that the area underneath the bed is vacuumed
- Pull all furniture away from the walls
- Wipe the skirting boards
- Empty out all bedside tables and clean thoroughly
- Empty out wardrobes so that the inside may be sprayed
- Pick up any objects from the floors
- Remove all rugs from the floors and wash at high temperature
- Remove all personal effects from all affected rooms
- Ensure that the entire area is clear and suitable for spraying with insecticide
- The rooms should be totally empty, except for heavy items of furniture
