

Introduction

This document is the Final Local Implementation Plan (LIP) for the London Borough of Haringey. The LIP contains the Council's proposals for traffic and transport during the period 2005 to 2011. The Local Implementation Plan also shows how the London Borough of Haringey will contribute to the implementation of the Mayor for London's Transport Strategy (MTS).

Structure of the Local Implementation Plan

Chapter 1 describes the socio/demographic context of the Borough and Chapter 2 gives more detail on the transport environment including key indicators. The Haringey Transport Strategy is given as Chapter 3. This forms the Borough Policy Statement required in the Local Implementation Plan. The policies underpin all of the proposals in the LIP. Chapter 4 provide an assessment of how proposals in various programme areas meet the equality and inclusion objectives of the Mayor's Transport Strategy.

Specific proposals are given in Chapter 5. The Chapter is divided into a number of sub-chapters each addressing one of the eight priorities of the MTS. For convenience a further 3 sub-chapters are included covering Town Centres, Travel Awareness and Regeneration Areas.

Performance Indicators and LIP monitoring are discussed in Chapter 6. The Consultation Strategy and Responses are outlined in Chapter 7.

Chapter 8 gives a statement of the Borough's Core Capacity to implement the proposed programme. Chapter 9 describes the Environmental Aspects and includes the draft Final Environmental Statement. The funding implications are summarised in Chapter 10.

A number of appendices support the main body of the Local Implementation Plan. Appendix 1 is a Matrix showing in detail how the LB Haringey LIP proposal support and complement the Mayor's Transport Strategy. Appendices 2 and 3 contain the LIP Proposal Delivery Forms and LIP Proposal Summary Sheet respectively.

Related but separate to the Final LIP are the Road Safety Plan, School Travel Plan Strategy and the Parking and Enforcement Plan. These are provided in stand alone documents.

Final Local Implementation Plan – Table of Contents

Table of Contents		Page
Chapter 1	Local socio/demographic context	1-1
Chapter 2	Local Transport Context	2-1
Chapter 3	Haringey Transport Strategy	3-1
Chapter 4	Equality Impact Assessment	4-1
Chapter 5	LIP proposals for MTS priority areas	5-1
5.0	Introduction	5-1
5.1	Cross-cutting Goals	5-1
5.2	Improving road safety	5-4
	School Road Safety	5-17
	20 mph Zones	5-21
	Home Zones	5-25
5.3	Improving Bus Journey Times and Reliability	5-27
	Bus Priority Programme	5-50
5.4	Relieving traffic congestion and improving journey time reliability	5-62
	Congestion Hotspots	5-72
	Parallel Initiatives	5-84
5.5	Improving the working of parking and loading arrangements	5-89
