## STATUTORY CONSULTATION

### Proposed Electric Vehicle Charging Points (EVCPs)

Dear Resident or Business,

As part of the council's policy to promote and encourage the uptake of Electric Vehicles, we are proposing to increase the number of Electric Vehicle Charging Points by installing up to **26** additional points at **10** locations across Haringey. These will be part of the Source London charging network and will be accessible to Source London members, and all other users on a 'pay as you go' basis.

We are writing to notify you that charging points are being proposed in, or near your road, and these will have designated parking bays for the specific use of electric vehicles only. The attached list details the locations where EV charging bays are proposed across the borough. The detailed design plan for each location is available on our website <https://www.haringey.gov.uk/new-ev-charging>.

In order to introduce the charging points and bays, we are required to carry out statutory consultation. This is the legal part of the process and takes the form of a public notice advertised in the local press, London Gazette and displayed in visible locations on street, to inform of the council's intentions.

The consultation will end on **15 March 2021** and provides a 28 day period for interested parties to make representations or comments on the proposals. If you would like to make comment on the proposal, please respond via our website at <https://consultation.appyway.com/haringey>, ref: **2022 - T11 EVCP Batch 2**.

If you have any questions regarding the scheme, please contact us: [frontline.consultation@haringey.gov.uk](mailto:frontline.consultation@haringey.gov.uk).

**Comments must be received no later than 15 March 2021.**

Thank you for your attention,

Yours faithfully,
