

Wood Green Voices

JOIN THE CONVERSATION

Wood Green is your home, the place you come to spend time, shop, eat, meet friends, exercise, work or run your business. Wood Green is also the civic heart of the borough.

WHAT DO YOU LOVE ABOUT WOOD GREEN? WHAT NEEDS IMPROVING?

We're all navigating our way through unprecedented times. Severe weather events due to global warming present major challenges; and the COVID pandemic has fundamentally changed how we use connect with local spaces, places and our community. Now the cost-of-living crisis is impacting how we live our lives.

We want to make sure any projects or plans to improve Wood Green will reflect your priorities.

TELL US ABOUT YOUR WOOD GREEN

Wood Green is an established place and there are things the council can't change, but we want to start a conversation with you about those things we can.

Some of you may have talked to us before and for others this will be a new conversation. This is a fresh start, a new approach to placemaking in Wood Green and a real opportunity to influence your local area.
