

# PLANS FOR PENSTOCK TUNNEL

## ABOUT THE PROJECT

Haringey Council has commissioned architects and urban designers We Made That for the design and delivery of public realm improvements to Penstock Tunnel in Wood Green, alongside artist Emma Smith and lighting designers Studio Dekka.

The tunnel forms a key link connecting Wood Green town centre and Cultural Quarter in the east with Alexandra Palace and Park and Hornsey in the west.

The proposals seek to create better connections across the borough with improvements including drainage, wayfinding, lighting and landscaping, as well as an integrated artwork commission. The project is part of the wider Connecting Wood Green programme supported by the Greater London Authority's Good Growth Fund.

### WHAT ARE WE DOING TODAY?

- Share the project progress with you, and answer any questions you have.
- Explore some of the challenges and questions that will need to be answered in the proposals.
- Share your views and contribute your ideas for improving Penstock Tunnel.
- Join artist Emma Smith to explore how spaces, light and colour make us feel and get involved in the artwork being created.
