Public Consultation: Proposed Parking Controls in Muswell Hill

Dear Resident or Business,

You may recall that the Council carried out a survey last year to check if residents would like to be consulted in detail about parking conditions in Muswell Hill. Concerns had been identified following the redevelopment of the old St Luke's hospital site in Woodside Avenue.

We received 544 responses to the survey, which represented a 27% response rate. Two thirds of respondents said they would welcome a public consultation on parking controls. As a result we are now consulting on the proposal to introduce parking controls in the local area.

We are extending the consultation period to six weeks to allow extra time on account of the summer holiday season. Please complete the enclosed questionnaire to let us know your views on whether controls are needed and, if applicable, what days and hours should controls apply. . When completed please return the questionnaire in the freepost envelope provided. Please ensure your response reaches us by 30 September 2016.

Your feedback will inform us of the extent of demand for a Controlled Parking Zone (CPZ). Council officers will discuss the feedback with ward councillors. If there is sufficient demand for CPZ controls then we will proceed to Statutory Consultation, which is the more formal stage of the process and which is also a legal requirement if controls are proposed.

For questions about the consultation please email frontline.consultation@haringey.gov.uk Information about CPZs and charges is enclosed and full details are available on the website.

We look forward to hearing your views.

Yours faithfully,

A handwritten signature in black ink that reads 'Ann Cunningham'.
