Outcome of Consultation and Works Notification

Extension of St Ann’s Controlled Parking Zone (CPZ)

Dear Resident or Business,

You may recall we consulted last year to assess demand for parking controls in the area. We received 386 responses with 67% supporting the introduction of parking controls.

As a result we have decided to extend St Ann’s CPZ to include your road. Details are set out on the map overleaf. CPZ controls will operate Monday – Saturday from 8am to 6.30pm. Work on road markings and signage will start week commencing 24 October 2016 and should take approximately four weeks to complete, weather permitting. Operation and enforcement of the CPZ will take effect from 28 November.

The Council is committed to listening to the community and will introduce the new parking controls under an Experimental Traffic Management Order. During this period the Council will keep the operation of the CPZ, including its days and hours of operation, under review to ensure its effectiveness is properly assessed.

This also enables any interested party to make a representation to the Council during the first six months and if required there is flexibility to modify the CPZ in response to any such representations. Towards the end of the experimental period - which could last up to 18 months - the Council will decide if the controls should then become permanent. However, please note that the Council will not consider removing the controls at the behest of residents who live outside the CPZ.

You can apply for resident permits or visitor vouchers online at: www.haringey.gov.uk/parking. As part of the application process, you will be asked to supply proof of address and a scan of your vehicle’s logbook.

To apply for visitor vouchers only, you will need to register with us. Please email permits-vouchers@haringey.gov.uk advising of your Council Tax reference number. If you do not have this available, please attach a document showing proof of your address (not mobile phone bills). Registration is usually completed within five working days and you will be given a logon ID to enable future purchase of visitor vouchers online. Permits and vouchers purchased online will be posted within five working days of the transaction date. Businesses requiring permits should visit www.haringey.gov.uk/parking for more information and to download a business permit application form.

Permit applications should be submitted as soon as possible so that they can be processed ready for the operational start date of 28 November 2016. If you have any queries about parking permits, charges, or need a further application form please email permits-vouchers@haringey.gov.uk or telephone 020 8489 5143. For queries about the CPZ please email frontline.consultation@haringey.gov.uk or contact the Project Engineer on 020 8489 5143. Please remember that the council will enforce the CPZ from 28 November 2016.

Yours faithfully,

Ann Cunningham
