### Public Consultation

## Have Your Say on extending Alexandra Palace Controlled Parking Zone (CPZ) to include Dagmar Road and Crescent Road

Dear Resident or Business,

We are consulting you on the possible extension of the existing Alexandra Palace CPZ into Dagmar and Crescent Roads, and we would like to hear your views. The decision to consult follows a pre-consultation survey carried out earlier this year, where 88% of responses from Dagmar Road and 67% from Crescent Road showed support for a full consultation on parking controls.

Please have your say by completing and returning the enclosed freepost feedback card or by filling in our online parking feedback form at: [www.haringey.gov.uk/current-parking-consultations](http://www.haringey.gov.uk/current-parking-consultations). If you have a QR reader, please scan the QR code above to go to the web page. Please ensure you include your road name and house number, and tell us if you support or object to CPZ controls.

The existing CPZ operates weekdays (Mon-Fri) from 12noon - 2pm and these would be the times for Dagmar and Crescent Roads, should the consultation response be positive. A short CPZ operating period is designed to discourage all day parking associated with commuters, while making it easy for residents to have friends, family and other visitors outside of these operational times.

Please ensure your comments reach us by the closing date of 2 November 2017. We will analyse responses in detail and will write to you again to report the outcome of this consultation and give information on future plans.

Summary information about CPZ's is set out overleaf. Full information is available on the website at: [www.haringey.gov.uk/parking/cpz](http://www.haringey.gov.uk/parking/cpz). If you have other questions please email us at [frontline.consultation@haringey.gov.uk](mailto:frontline.consultation@haringey.gov.uk)

With thanks for your attention, we look forward to hearing from you.

Yours faithfully,

A handwritten signature in black ink, appearing to be 'Ann Cunningham', written over a light blue horizontal line.

## INFORMATION SUMMARY

A Controlled Parking Zone (CPZ) is an area where the kerbside is marked out with parking space where it is safe to park. Yellow line restrictions show where parking is not allowed. CPZs aim to provide protected parking facilities for residents and their visitors, as well as short-term parking for shoppers and business visitors. CPZs are usually located in areas around shops and transport hubs where extraneous parking takes up residents' spaces.

CPZs also deal with illegal and obstructive parking and tackle the problem of non-local vehicles (trade vans, campers etc.) often left parked for long periods in uncontrolled roads.

### HOW DO CPZs WORK?

CPZs mean that only vehicles with valid permits are allowed to park in controlled roads during the operating hours. Permits will only be made available to local residents and businesses within the CPZ boundary. Illegally parked vehicles are liable to receive a Penalty Charge Notice (parking ticket).

### WHAT ARE THE ADVANTAGES OF A CPZ?

Parking spaces are prioritised for residents and their visitors. Pay to park bays are provided near shopping areas to increase the turnover of spaces and therefore help shoppers find parking space.

Yellow lines will prevent obstructive parking on junctions, across driveways, and in narrow roads.

Accessibility is improved for pedestrians, those with disabilities, buses, the emergency services and refuse collection vehicles by removing obstructive parking.

### CPZs HAVE SOME DISADVANTAGES

There is a charge for permits. This charge is to cover the cost of administering and enforcing the scheme. <http://www.haringey.gov.uk/parking-roads-and-travel/parking/parking-permits/permits-price-list>

The layout of parking bays may appear to reduce the amount of parking spaces available but much of this parking may be obstructive or dangerous. Residents should be aware that displacement (overspill) parking tends to occur in uncontrolled roads close to existing CPZs.

In CPZs, there is no parking across driveways. This is both because practical enforcement difficulties arise and because tensions arise if, for example, a neighbour parks across your driveway. However, outside of the controlled times, residents can park on single yellow lines across driveways.

### TYPES OF PARKING BAYS AND WHO CAN PARK IN THEM

#### **Residents / Business permit parking**

Bays are marked for the use of vehicles displaying a valid parking permit during the CPZ operating period. Only residents/businesses of the zone are eligible for parking permits. No permit is required if you do not need to park on-street during the operating hours.

#### **Visitor parking**

Residents' visitors can park in private driveways where this is possible or arrange their visits outside the operating times, if this is convenient. Visitors can park in residents' permit bays during the hours of control provided a valid visitor permit is displayed. Visitor permits can be purchased by residents.
