Statutory Consultation

Queenswood Road N6 / Wood Lane N6: Proposed Changes to Parking Spaces and Proposed Double Yellow Lines.

Dear Resident,

Over the last 12-18 months we have received numerous complaints about the parking congestion in Queenswood Road and Wood Lane at busy times.

One of the reasons for the traffic build up on Queenswood Road is the limited passing space caused by parked vehicles on both sides of the road. This can lead to gridlock and we have been supplied with photographs from different parties illustrating the fact.

There are also pedestrians in Queenswood Road to consider. There are dog walkers using the area and parents with children are also frequent visitors. The footpaths crossing Queenswood Road are often blocked by parked vehicles and we have a duty to provide safe crossing points as well as making it easier for drivers to see pedestrians.

We have therefore drawn up plans to introduce double yellow lines in sections of Queenswood road which currently has unrestricted parking along its length.

The section of Wood Lane close to the junction with Southwood Lane and Archway Road is also having problems with parking congestion near the junction.

Residents of Wood Lane have contacted Councillors Morris and Ogiehor to tell us that provision of double yellow lines from the junction down to number 8 Wood Lane would help tackle the congestion.

Full details of the proposals for Wood Lane and Queenswood Road are set out on the attached plans.

If you would like to make comments or if you wish to object to the proposed measures, please email us at frontline.consultation@haringey.gov.uk Please put ‘DYL’ in your email header and ensure that we receive your views as soon as convenient and before the consultation closing date of 17 August.

Thank you for your attention

Yours sincerely,

Parking Engineers
