Works Notice
Lordship Lane Primary School: ‘School Streets’ & Extension of Traffic Calming Measures

Dear Resident or Business,

I would like to thank all who participated in the original statutory consultation exercise conducted in early July 2018. We have considered all feedback and the associated council’s report is available on the website: www.haringey.gov.uk/road-safety-consultations

The council has decided to go ahead with the measures, which aim to improve air quality and road safety by reducing traffic speeds and congestion by Lordship Lane Primary School, thereby making walking and cycling more attractive.

The key measures are listed below and detailed on the plan overleaf:

1. Introduce a temporary closure at the southern section of Ellenborough Road by Granville Road to restrict vehicles entering this section of road at school opening (8:30 – 9:15am) and closing (2:45 – 3:30pm) times. This measure will reduce traffic congestion immediately outside the school, improving road safety and air quality.

2. Introduce sinusoidal speed humps on Eldon Road (southern section), Tintern Road, Grainger Road, New Road, Ellenborough Road (northern section) and Granville Road (western section). This measure will reduce traffic speeds and thus improve road safety for all and in particular those attending Lordship Lane Primary school.

The closure will be indicated by signage and enforced by bollards raised and lowered by school staff. In case of an emergency where full road access needs to be reinstated, school staff will be in the vicinity of the bollards to open the road. Alternatively, you can phone the school direct on 0208 888 6541 or visit the school’s office.

We will write to Ellenborough Road residents again to confirm the exact start date of the road closure on the southern section of Ellenborough Road.

We plan to start the road works week commencing 12 November 2018, which is expected to take approximately 4 weeks to complete, weather permitting. During the construction of the sinusoidal speed humps, it will be necessary to have road closures in place, but access will be maintained at all times and diversion routes shown by signs

I would like to take this opportunity to apologise in advance for any inconvenience that may be caused.

Yours faithfully
