Works Notice
Chesnut Road Cycle & Pedestrian Link Road Improvements

Dear Resident or Business,

Improvement works are planned for the current walking, cycling and open space area running beside Tamar Way from the junction of Chesnut Road and Hamilton Close, through to the junction of Chesnut Road and Rycroft Way.

The main improvement construction works are planned to start on 13 May and are expected to run until 16 August 2019, weather permitting. Shrubs and other planting will then be carried out in October and November 2019 (the planting season).

The main improvement works will consist of:

- Provision of a shared route for pedestrians and cyclists resurfaced with block paving and decorative granite cobbles.
- Creation of a new ‘pocket park’ area with new shrub planting and green landscaping.
- Removal of existing brick wall between Chesnut Rd and Tamar Way.
- Removal of fencing and other access restrictions around the green areas.
- Introduction of sustainable drainage - with rain gardens and improvements to the existing drainage network.
- Installation of play equipment and a scooter track.
- Installation of outdoor gym equipment.
- Street lighting improvements

A simple illustration of the planned works is pictured overleaf along with a list of the measures to be introduced. More detailed plans can be found on the ‘current road safety consultations’ page of the website: www.haringey.gov.uk/road-safety-consultations

If you would like more information, please email us at frontline.consultation@haringey.gov.uk with ‘Chesnut Rd’ in your email header.

Thank you for your attention.

Yours faithfully

Sustainable Transport: Highways Engineering
Chesnut Road Cycle & Pedestrian Link Road Improvements

Location: from the junction of Chesnut Road/Rycroft Way through to the junction of Chesnut Road/Hamilton Close.

Description: The works broadly comprise the following:

- Footway/cycleway resurfacing works with the creation of a 4.2m wide shared surface for pedestrians and cyclists.
- Removal of existing surface materials (asphalt and concrete modular paving) and replacement with concrete block paving and decorative granite setts.
- Creation of a new pocket park including new shrub planting and soft landscaping works.
- Introduction of SuDS with rain gardens, a swale and improvements to the existing drainage network.
- Demolition of existing brick wall dividing Chesnut Rd and Tamar Way, brick planter and fencing around the green areas.
- Installation of play equipment and a scooter track.
- Installation of outdoor gym equipment.
- Improved street lighting including repainting lighting columns, small number of column relocations and introduction of GOBO lighting to existing lighting columns.
- Rationalisation of street furniture and current restricted access layout.
- Installation of bollards and signage.
