## Public consultation on parking controls

Tottenham Event Day (TED) and Tower Gardens Event Day (TGED)

Dear Resident or Business,

Following our consultations last year, many residents and businesses reported that parking behaviours have changed since the completion of building developments, and the new Tottenham Hotspur Football Club stadium, along with the introduction of parking controls in the surrounding area.

In response to this feedback, and to ensure that the council delivers parking measures that meet the needs of the community, we are reconsulting with residents and businesses to determine if parking controls are still supported, and if so what operating days and times are preferred.

As part of our consultations last year we said that we would simplify the event day times to operate between 8am to 11pm on event days. This proposal will remain unchanged and will not form part of this consultation. These operational times are designed to help protect parking for the local community during the planned sporting and music events that are held at the stadium. It will also enable the council to provide effective enforcement during these events, particularly within our hotspot areas.

### Have your say

We would like to know if you are in favour of having a Controlled Parking Zone introduced, and if so what days and times you prefer. We would also like to hear of any safety issues that could be affecting your community.

Encouraging more people to cycle is a vital part of our plan to tackle congestion, improve air quality, promote physical activity and improve accessibility. As the number of people who cycle increases, we recognise the need for safe and secure parking. As part of this exercise we are asking residents if they support the installation of cycle storage facilities in your road. This information will help us establish areas of demand and develop future programmes.

**As part of the council's action plan to promote and encourage the uptake of Electric Vehicles,** we are considering further locations to increase the number of Electric Vehicles charging points/bays available in the borough. If you would like to request an on-street charging point or suggest a location to be considered, then please provide details within the comments section of the questionnaire.

Details of how Controlled Parking Zones operate, along with their advantages and disadvantages is set out overleaf. Full information is also available on the council's website with links to the current permit price information: [www.haringey.gov.uk/parking/cpz](http://www.haringey.gov.uk/parking/cpz).

Residents in car free developments will not be eligible to apply for permits to park within Controlled Parking Zones. This a London wide Mayoral planning policy to encourage the uptake of sustainable modes of travel such as walking, cycling and the use of local transport.

Homes for Haringey residents are eligible to apply for parking permits but will not have parking restrictions installed on estate areas or roads that are managed by Homes for Haringey.

Please tell us what you think by completing the attached questionnaire and returning it to us in the Freepost envelope provided. If you prefer, the questionnaire can be completed online at [www.haringey.gov.uk/current-parking-consultations](http://www.haringey.gov.uk/current-parking-consultations).

Please send us your completed questionnaire no later than **16 March 2020**.

### What Happens Next?

Council Officers will analyze and discuss the outcome of the consultation with your ward councilors. We will update residents and businesses of the outcome and next steps with the **results of the consultation published on the council's website.**

If you have questions about the consultation, please email us at [frontline.consultation@haringey.gov.uk](mailto:frontline.consultation@haringey.gov.uk)

With thanks for your attention, we look forward to hearing from you.

Yours faithfully

# Tottenham Parking Questionnaire

Q1 Please tell us your road name and house number. (Personal details will not be published, but we need the information for our analysis)

Q2 Are you responding as a resident or business?

Resident

Business

Q3 Is it difficult to park in your road?

Yes

No

Sometimes

Q4 What sort of parking controls would you prefer?

Event / match day-only controls

Event day and weekday controls

Q5 If you think 'full time' CPZ controls are needed as well as event days, which days do you think they should operate?

Mon - Fri

Mon - Sat

Mon - Sun

Q6 If the CPZ was 'full time' what operating hours do you think it should have?

2 hours 10am - 12noon

5 hours 11am - 4pm

2 hours 12noon - 2pm

All day e.g 8am to 6.30pm

4 hours 10am - 2pm

All day and evenings e.g to 8pm

Q7 Which (if any) of these parking problems affect your road? Tick those that apply

Commuter parking

Tottenham Stadium visitors

Overspill from nearby CPZs

Trade vans, campers

Shop or business staff, customers

Other non-local vehicles

Multicar households

None of these problems

Use of bins to reserve space

Q8 Would you like an electric vehicle charging point (EVCP) outside your house?

Yes

No

Q9 Would you like a 'Bikehangar' cycle storage facility in your road?

Yes

No

Q10 **Some roads have 'Pay by Phone' (pay to park) bays installed to help with visitors. Does your road need any (or more) Pay by Phone bays?**

Yes

No

Q11 **Please use this space for any comments (including preferred operating times)**

**Thank you for completing the questionnaire. Please return it to us using the Freepost envelope**
