

## Play Streets – unsuitable streets

Note: This is not an exhaustive list and **other streets may be considered unsuitable** for Play Street closures in the following circumstances:

- Roads that are designated as Traffic Sensitive, for reasons other than Winter maintenance
- Roads that do not have a viable diversion route
- Roads where the diversion route will significantly increase traffic volume on TLRN, SRN, Principal Roads, Classified Roads or Bus Routes
- Roads that are adjoining a TLRN, SRN or Principal Road.
- Roads where a Play Street closure would conflict with other activities or have a detrimental effect on the operation of the road network.
