<p>Sproughton Courtenay Avenue N6 4LR</p> <p>Works to trees protected by an Area TPO: Front Garden: Conifers: The row of conifers on the boundary which overhang Hillsdown have become very tall and are causing some nuisance. Our specification is based upon the tree line as viewed from Hillsdown. Reduce height by 30-40% as is practicable whilst preserving a strong hedge line, viable growth points and screen between Hillsdown and Sproughton. Reasons: to manage height and lateral spread. Sycamore: Approximately 12.00-14.00m. This tree is located within the conifer hedge line and is somewhat taller than the surrounding trees. Reduce crown by approximately 20% and thin crown density by 20%. Reasons: help manage size and increase light levels to both properties and hedge line whilst preserving natural characteristics and aesthetic value. Rear Garden: Hornbeam: Located on the higher lawn near the pool area. This very large tree has died and is in a state of considerable decay. Fell to ground level</p>
