Subject: Pinkham Way objection

To whom it may concern

I am writing to you in regards to the proposed Pinkham Way change of usage. My objection to this change of land usage are on the following grounds:

- The site is listed as a protected green space. In an age where we are loosing green spaces yet encouraging people to get out and be active, this is simply unacceptable. It also goes against the principles as to why it was made a protected space in the first place.

- As you are fully aware, the site is next to a built up residential area and local schools. The knock on effect of increased pollution from the number of trucks servicing the site, is clear and again, goes against the targets of reducing pollution in this area.

- The consultation has been limited and not transparent. This is undemocratic and not in the interests of local residents.

- There is no clear logic as to why such a site is being put in a residential area when it is a very industrial business. Furthermore there is another recycling plant not far away in Chingford.

Thank you for paying attention to my comments.

I look forward to hearing from you

Your sincerely

Liz Avital
