Dear Sir,

I notice, with misgivings, that Haringey Council is attempting to redesignate the Pinkham Wood site in order to fulfill the criteria for development of the site by North London waste Authority as a waste processing plant and vehical depot.

This site, as the Council must know, is listed as Grade 1 Borough Importance for Nature and designation cannot be altered just because it's inconvenient.

Areas such as this are vital for wildlife in order that 'green corridors' are formed.

I am opposed to alteration of Pinkham Wood's status for any thing other than nature conservation.

Yours sincerely

Linda Bannister,
