## **AUTOMATIC GEARBOX SPECIALISTS**

Unit 3-4 Peacock Industrial Estate , 20 White Hart Lane , Tottenham N17 8DT

Tel : 0208 8854407 [info@brittanic-autos.co.uk](mailto:info@brittanic-autos.co.uk)

My name is Nick Oliveri and I am from a garage called Brittanic Auto Transmission , I am second generation member of the family business. We are based at units 3-4 Peacock Industrial Estate. We have been established in the estate since 1986 and we own our freehold units .

We employ 6 people , one being a apprentice who is doing a apprenticeship via the North London Garage Scheme .He is studying for his NVQ.

We have various contracts with other businesses based in the area and we also are a cog in the supply chain supporting other local businesses .

As Freeholders in the regeneration area ,it is astonishing that the business community has not been listened to and largely sidelined by the process .

We feel that we have been excluded despite the fact that we have been here for over 30 years contributing to the local economy and paying business rates .

Non business people may not be aware of how vital location is to a business success .

Over these 3 decades we have established a good reputation building up a large local clientele , our location is in the hub of the area and has excellent transport links , with White Hart Lane station being a very short walk away and the local shops on Tottenham high road . We also have quick access to major roads such as A10 , A406 & M25.

I have attended a Fairness commission meeting . I was part of a deputation that Faruk Tepeyurt (Chairman of Peacock Estate ) delivered back in October 2017 .

I welcome the Fairness commission as the way of a honest discussion about improving the area . My family is committed to remaining where we are and we want to be part of a successful Tottenham . We feel that the whole regeneration debate is a loaded against us .

In the early years of starting a business great sacrifices were made from us , we never had family holidays , dad worked late at night, my mother would bring his dinner in the evenings and that was our time spent together as a family. As kids me and my brothers would come to the garage in school holidays and help out. It is disgusting that we have worked hard to achieve something and it is proposed that our property and business is to be taken away from us against our wishes.

Our wish is to remain in our home and to be left alone. Haringey Council “you are not listening to our request to remain trading in our Tottenham home “

I am happy to explain further and you are more than welcome to come and visit for a coffee and see what we do .

Kind regards

Nick
