How we deliver our services

We make a fundamental contribution to the maintenance and improvement of public health, quality of life and wellbeing. Our aims are to:

- Protect the public, businesses, and the environment from harm.
- Support the local economy to grow and prosper.

We determine our activities by assessing the needs of local people, business and our community and considering the risks that require addressing. We do this through engaging with local businesses and residents either in person, by mail in the form of customer care questionnaires, consultations and through using data and other information available to us and our partners. In this way we ensure our resources are targeted appropriately considering local needs and of national priorities.

Details of our current work programme are available:

1. Food and Feed Law Enforcement Plan 2023-24
2. Health & Safety Service Delivery Plan 2023-24
3. Trading Standards Delivery Plan 2023-24

We are committed to being transparent in our activities. We measure what is important and we publish a range of information about our performance data so that you can see how we are doing.

We carry out all our activities in a way that supports those we regulate to comply and grow:

- We ensure that information, guidance, and advice is available to help you to meet legal requirements (see [helping you to get it right](#)).
- We carry out inspections and other activities to check compliance with legal requirements, and we target these checks where we believe there is the most risk. (See [Inspections and other compliance visits](#)).
- We deal proportionately with breaches of the law as set out in our Enforcement Policy, including taking firm enforcement action when necessary (See [Responding to non-compliance](#)).
- We provide a range of services to businesses, including: The Responsible Retailers Scheme, The Healthy Catering Scheme, *Food Hygiene Training*, and *Issuing Health Certificates* (see [Requests for our service](#)).

Our services will be delivered in accordance with the requirements of the [Regulators' Code](#).

Helping you to get it right.

We want to collaborate with you to help your business to be compliant and successful and it is important to us that you feel able to come to us for advice when you need it. We will not take enforcement action just because you tell us that you have a problem.

We make information and guidance on meeting legal requirements available via:

- [the Council's Website](#)
- Links to other relevant websites such and the [Food Standards Agency](#), the [Health and Safety Executive](#), [Department of Business, Energy and Industrial Strategy \(BEIS\)](#), [National Trading Standards](#), and the [London Trading Standards](#).

Where you need advice that is tailored to your particular needs and circumstances we will:

- Provide clear advice that can be easily understood and implemented.
- Distinguish legal requirements from suggested good practice.
- Ensure that any verbal advice you receive is confirmed in writing if requested.

- Acknowledge good practice and compliance.

Haringey Council is a strong supporter of the Primary Authority Scheme (PAS), which provides businesses with more than one outlet in various Local Authorities with assured advice, consistency of regulation and reduces duplication of inspections and paperwork. For more details of the PAS please visit the Office of Product Safety and Standards website by clicking [here](#).

Inspections and other compliance visits

We monitor and support compliance in a number of different ways including through inspections, sampling visits, advisory visits, and complaint investigations. These visits will always be based on an assessment of risk – we will not visit without a reason.

We will not give you notice that we intend to visit unless we have specific reason to believe that an announced visit is more appropriate.

When we visit you, our officers will:

- Explain the reason and purpose of the visit.
- Always carry their identification card and present it on request when visiting your premises.
- Exercise discretion in front of your customers and staff
- Have regard to your approach to compliance and use this information to inform future interactions with you.
- Provide information, guidance, and advice to support you in meeting your statutory obligations, if required
- Provide a written record of the visit.

Food Hygiene and Standards Inspections are conducted in accordance with the Food Law Code of Practice (England) (2015). A copy of which can be seen [here](#).

Health and Safety Inspections are conducted in accordance with the Health and Safety Executive's (HSE) Guidance - Targeting Interventions LAC 67/2. A copy of which can be found [here](#).

Our Team

We have a dedicated team of officers who have the appropriate qualifications, skills, and experience to deliver the services provided. We have arrangements in place to ensure the ongoing professional competency of all officers.

Where specialist knowledge is required in an area outside of our expertise we have arrangements in place, with both neighbouring authorities and other regulatory organisations, to call on additional resources, as necessary.

Working with others

We work closely with other council services such as Enforcement Response, Licensing, Antisocial Behaviour Team, Planning and Building Control and our aim is to provide a streamlined service to you.

We are part of a much wider regulatory system in Haringey. We have good working relationships with other regulators such as the Fire Authority, Police and Her Majesty's Revenue & Customs, and this enables us to deliver a more joined up and consistent service. This includes sharing information and data on compliance and risk, where the law allows, helping target regulatory resources.
