Subject: objection to Pinkham Way development
Dear Sir / Madam.
I object to the changes made that have led to the plans for Pinkham Way to be developed into a Waste

Disposal Plant. I have concerns about the change of designation of the Pinkham Way to be developed into a Waste employment use to industrial use ('employment land designations in SP8 Employment of the Core Strategy, change of land designation for DEA6 from employment land to locally significant industrial site).

I object to:

• The suitability of using the site for industrial use when it has been previously listed as green space that should be protected.

• The environmental impact of using the site for industrial use, particularly when the site is very close to a built up residential area and local schools.

• The limited consultation that has been carried out and Haringey Council's failure to adequately consult local people and inform them of the re-consultation.

The loss of land for employment use and the impact this will have on creating new jobs.

I hope that Haringey council rethinks its proposals and ensures that the land at Pinkham Way is not redesignated for industrial use - as the development of a waste disposal site is not appropriate for the local area and would have a significant negative impact on the local community's lives and health.

è

Kind regards, Emma Deba
