Dear Sir/Madam

Haringey Local development Framework.

Revised Consultation on Core Strategy Fundamental Changes and Sustainability Appraisal.

Thank you for consulting us on these proposed changes.

The Sustainability Appraisal (SA) correctly identifies that the changes may have an impact on the water environment. On page 6, under the heading Friern Barnet N10, it refers to the drainage culvert which runs through the site. The SA identifies that this could be de-culverted as part of any redevelopment of the site. This should be reflected in the Appraisal Matrix on page 19.

Please get in touch if you wish to discuss this.

Yours faithfully

Mr Nick Birkbeck
Planning Liaison Officer
