Outcome of Statutory Consultation and Works Notice

Installation of Electric Vehicle Charging Points (EVCP's) at various locations in the borough.

Dear Resident or Business,

You may recall that we consulted you in September/October 2020 regarding the possible introduction of 37 Electric Vehicles Charging Points (EVCP's)/bays at 11 locations in the borough. We received a good response to the consultation and on behalf of the Council, we would like to thank all those who took the time to have their say and make their views known.

Full details of all comments can be found in a report now available on the council's website at: <http://www.haringey.gov.uk/parkingconsultations>.

As part of the decision-making process, the council have considered all comments and now approved the introduction of EV charging points at the locations listed at the back of this letter. The detailed design drawings for each location is available on our website www.haringey.gov.uk > Parking Roads and Travel > Travel > Electric Vehicles > Electric Vehicle Charging Points > New EV charging point proposals.

These charging points will be part of the Source London network and will be accessible to Source London members and all other users on 'pay as you go' bases. More information on membership and usage prices of the charging points can be found on the Source London website: www.sourcelondon.net

The installation works for the EV charging points will be carried out over the next two months and we expect all the charging points to be operational before the end of August 2021.

If you have any queries or require any further information, you can e-mail us at frontline@haringey.gov.uk.

Thank you for your interest,

Yours faithfully,

Parking Schemes
