Dear Sirs,

Pinkham Way development

I am writing to object to the proposed change from protected green space to industrial use for Pinkham Way. There is little enough green space in this part of the country, as a visit to Google Earth or other satellite imagery will readily attest. I know of no-one in the local area that believes it a good idea to change the permitted use of the land.

The impact of the planned waste plant on local residents and the effect on traffic volumes in an already busy area is bound to be detrimental. I know of no-one in the local area that believes it a good idea to change the permitted use of the land.

Yours faithfully

Richard Fitzgerald
