Dear Sir/Madame,

I am writing to complain about the way the consultation process over the reclassification of the natural woodland at Pinkham Way has been handled by Haringey Council, as well as to complain about the reclassification of the land also.

I am a former resident of Haringey and now live close to the site within Barnet Council's jurisdiction. I have heard that plans to re-designate the land at Pinkham Way for industrial development are already well under way and that Haringey Council are actually aiding the process! I am deeply concerned for residents like myself who border this area and rely on it as a green buffer from the A406, and I am deeply concerned for wildlife contained within the site also.

I want to know how Haringey Council thinks it can do this without proper public consultation - I have not received any formal consultation thus far. I want to know under what laws and regulations the land can be reclassified under for example too.

Yours faithfully,

Laurence Gale
