Subject: Pinkhm Way Urgent

To Whom it May Concern,

I am extremely concerned about this whole situation re Pinkham Way and the change of use Haringey are trying to use.

:

- The suitability of using the site for industrial use when it has been previously listed as green space that should be protected.
- The environmental impact of using the site for industrial use, particularly when the site is very close to a built up residential area and local schools.
- The limited consultation that has been carried out and Haringey Council's failure to adequately consult local people and inform them of the re-consultation.
- The loss of land for employment use and the impact this will have on creating new jobs.

People will suffer severely from smell, traffic and decrease in property prices. It seems pretty clear to me this is all about money for the council with no care or consideration for residents whatsoever.

This area is an over populated residential area and it is outrageous that it has come to here in London rather than some other place in UK where it is not anywhere near as populated.

This is a complete outrage and Haringey seem to be looking for any way they can to get this passed through.

I wonder if any of the top people of the council live in the area or close by??/ I doubt it

This is a complete disgrace and there will be a lot of objection

Regards

Caroline Green
