**Subject:** Concerns about the change of designation of the Pinkham Way

To the LDF Team of Haringey council

As a local resident I would like to make my views known regarding the change of designation of the Pinkham Way site from employment use to industrial use.

1. Changing the land to Industrial from employment use will take away the opportunity for creating potential new jobs.
2. The overwhelming impact on the environment if it is used for Industrial use. Myself and my child are already suffering from the impact of fumes from the heavy traffic on the A406. If this sight is to be used as an industrial sight, not only will this add to our on going problem with health issue but the addition of many more lorries on the road!
3. I understand that this land has previously be listed as green space that should be protected.
4. I have NEVER been consulted as a local resident. Haringey Council has failed to adequately consult and inform us of re-consultation. I have only found out about the re-consultation from the Pinkham Way Alliance

You will have received my response before the deadline given of 3 November 2011

Yours sincerely  
Suzanne Green
