

## Functional Skills: **Maths Non-Calculator Skills courses**

This non-exam course is for people who are exploring a FS qualification or for those who might need a bridging qualification to build knowledge, skills and confidence before starting on the accredited course.

### Course overview

Maths without a calculator can be challenging but it is a really important skill to learn in order to strengthen the basics. Our Non Calculator skills are available at Entry Level and level 1 and 2 and help to orient learners to Functional skills or to bridge the skills gap before starting on an exam course.

### What will people learn?

Non calculator maths looks at developing an understanding of the Functional Skills topics without using a calculator:

- Number calculations
- Handling data
- Shape and Space
- Measures
- Fractions, decimals and percentages

- Course date:
