Having recently been informed about the latest developments, I feel I must strongly protest against any move to develop the site at Pinkham Way to house the proposed waste plant. If this plant was to be built on the proposed site it would diminish the quality of life in our area and effect the the value of property locally.

It seems to me that Haringay Council has not properly consulted people who would be effected by the changing of the land from green space to industrial land close to a residential area and local schools.

The council should take note of the grave concern amongst local people about this project and take into consideration their needs and their quality of life style.
