## Informal Consultation Letter

### Proposed Extension of Bounds Green Controlled Parking Zone (CPZ)

Dear Resident or Business of Park Grove, Bailey Close and Edith Road,

We recently consulted residents on a proposal to extend Bounds Green CPZ to include additional local roads. The consultation resulted in 223 households responding with detailed views and comments. We take this opportunity to thank those residents who participated in the consultation and helped us achieve a good response rate of 16%.

Overall, 57% (127) of residents were opposed to the CPZ extension and 41% (91) were in favour. Those in favour are mainly residents of Palace Road with 69% support, Park Road with 83% support, and Woodfield Way with 63% support. A petition in support was also received from Woodfield Way.

After studying the consultation feedback, we can best meet the needs of residents by applying CPZ controls only to Palace Road, Park Road and Woodfield Way. All other roads will remain free of CPZ controls. Further information and works details will be sent to residents of Palace Rd, Park Road and Woodfield Way when CPZ start dates have been finalised and approved.

While the council fully understands that many residents see no need for parking controls, we are aware from experience that new CPZs can lead to overspill or 'displacement' parking where some CPZ residents avoid paying for parking permits by leaving vehicles parked in nearby uncontrolled roads. Trade vans and campers are also often left parked in uncontrolled roads. If you think this could be a problem in your road when Bounds Green CPZ is extended, please tell us now. After the CPZ is introduced there will be no further opportunities for change until a review is carried out after the first year of operation.

Due to your geographical location which include being located between controlled roads, we are consulting with you. If you have any views or comments or would like your road included in the CPZ, please use the enclosed freepost feedback card, or email us at [frontline.consultation@haringey.gov.uk](mailto:frontline.consultation@haringey.gov.uk). The closing date for receipt of comments and objections is 13 September 2019.

Thank you for your attention and we look forward to hearing from you.

Yours faithfully
