Subject: Pinkham Way.

The proposed change of use of this site from green to industrial in this totally residential area is about the worst thing that can happen to local residents. It shows that Haringey councils claim that that they protect the environment and living standards of their hard working tax paying residents is not true.

The pollution noise and traffic problems caused by the increase in the number of extra vehicles in an area that is already suffering from too much traffic already is unacceptable.

I ask you to reconsider putting this facility in a more suitable place.

Patrick Kelly
