

Quick Reference Guide for Children's Social Workers

Based on the current knowledge of Covid-19 infection and transmission it appears that children are both unlikely to cause significant spread of the virus and do not usually experience severe illness. For this reason children's settings are currently perceived to be low risk and usual precautions such as handwashing should be sufficient to reduce risk of spread and PPE is not required.

Before your visit, please contact the client to confirm if anyone at home has COVID-19 symptoms or if anyone at home is extremely vulnerable to COVID-19 and advised to shield.

Please remember - when interacting with people at home always...

Keep a
minimum
distance of
2 metres
where
possible

Wash hands
frequently
(for at least
20 seconds)
or use hand
sanitizer with
a minimum of
60% alcohol

Clean surfaces
frequently
including
door
handles,
rails, hoists
etc.

Avoid
touching
your face,
nose and
eyes

You only need PPE if you are in a household where someone has COVID-19 symptoms and you cannot maintain 2 metres social distance, or if someone is extremely vulnerable to COVID-19

When do you need PPE?

If you are visiting any household where any member of the household is showing symptoms of COVID-19 (and self-isolating) or you are unable to make an assessment of COVID-19 status and you cannot maintain 2 metres social distance

or

If you are visiting a household where any member of the household is in the **extremely vulnerable group** advised to shield*

What PPE should you use?

- Disposable gloves
- Disposable plastic apron
- Fluid repellent surgical mask (*you may use a simple surgical mask if you are visiting a household where someone is extremely vulnerable and advised to shield, and no one has COVID-19 symptoms)
- Eye protection (use if there is a risk of splashing)

Safe use and disposal of PPE

- Follow the **guidance** on how to safely put on / take off PPE
- Use new gloves and apron for each client
- You can safely use a mask between households (on foot, by car or public transport) if you:
 - Don't touch the mask or lower it from your face
 - Change if it becomes soiled, damp, damaged or uncomfortable
 - Change when you need to remove the mask e.g. to drink, eat or take a break
 - Face masks can be worn for up to 8 hours
- Follow the **guidance** on how to decontaminate re-usable eye protection (if required) after use
- To safely dispose of PPE, double bag used apron, gloves and mask
- Set aside from other waste for 72 hours before disposal in general waste
- Wash your hands after taking off PPE and handling waste

**Guidance based on PHE advice 1 May 2020 and subject to change.
Always check for updates on the [gov.uk](https://www.gov.uk) website.**

If you have concerns about your visit or PPE please speak to your manager.
