

Tottenham Area Action Plan

LBH/Responses to **Matter 5 – Monitoring and Delivery**

COUNCIL STATEMENT

23. Chapter 6 of the AAP establishes the Council’s framework for implementation, delivery and monitoring of this local plan. Within this section, Tables 7 and 8 include specific indicators and measurable targets against which implementation of the AAP’s “key objectives” and “opportunity sites” will be assessed. The tables also set out triggers to help inform consideration of the need for contingency measures, including plan/policy review and other targeted actions. The AAP monitoring framework will complement and work in conjunction with the borough-wide framework included in the Strategic Policies, Appendix 3. The Council will regularly review and monitor performance towards delivery of the local plan through the Authority Monitoring Report process.
