7 November 2011

Dear Ms Whelehen

Pinkham Way Planning Consultation

Thank you for your email dated 3 November 2011 in which you extended to today the deadline for me to respond to the Pinkham Way planning consultation.

You will appreciate that since I have only just become aware of this application, I have only had limited time to look into this so, to meet the deadline of 5pm today, I have to rely on information which others have made available in order to support my own concerns about the proposed change in planning for the site and the possible construction of a waste disposal plant. I do not intend to repeat in detail the material provided by Pinkham Way Alliance and others on the internet but I gather from those websites that there are various legal requirements which have not been complied with in the consultation process.

I object to the proposed change in designation of the Pinkham Way site from employment land to industrial use. There are several reasons for my objection including the loss of caveat for the protection of the nature conservation value, the likely increased congestion at the North Circular and potential pollution issues.

As I understand the current situation, there is no evidence that Haringey has adequately considered alternative uses for the site or for the siting of the proposed waste plant or that the current strategy has been properly compared with other options.

Please will you add me to whatever mailing lists exist in relation to this application.

Yours sincerely

Peter McNamara
