Dear all

As a resident in Alexandra Park, I am incredibly concerned about the plans to build a waste plant in Pinkham Way. I believe this will have a highly negative impact on our community and strongly ask that you reconsider this as part of your consultation on 3rd November.

I also have to note that I find the attempt to redesignate the site as 'industrial' and therefore lower its ecological protection was highly manipulative and an abuse of power.

On Thursday, I ask that you consider, not the financial benefits or 'easy' solution, but the wider social and environmental impact a site such as this would have on our beautiful local area.

Many thanks

Melanie Miles
