

**Outcome 1**

Percentage of new homes which are affordable

Red

Target: 40% up to 2022

Affordable housing completion data for 2019/20 will be available in September 2020. A total of 12 affordable homes were built in 2018/19 from only one scheme at 624 High Road, N17. This was due to a lack of major housing schemes completing in this monitoring period. While affordable housing comprised only 2.11% of total housing delivery in 2018/19, over the 2011-2026 plan period to date 56.8% of homes delivered through major developments within the borough have been secured as affordable homes.
