

Turnpike Lane's Future

Haringey is our home, and we are proud of it. We are ambitious for Haringey's future and have great ambitions for the people who live and work here.

High Streets are the heart and soul of our community and as a council, we want to ensure that our High Streets remain a vibrant and bustling part of community life.

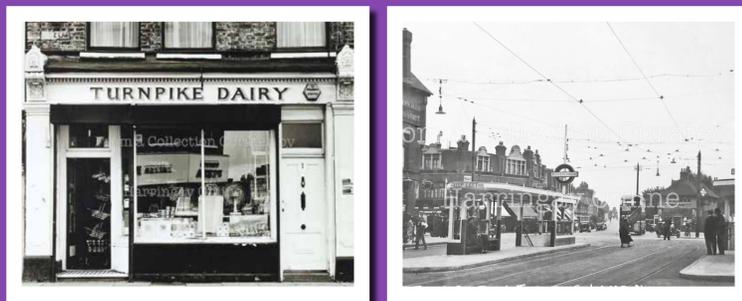

The purpose of this drop-in session is to gather your views - the local community - about the future of Turnpike Lane. Your opinions will feed into a collaborative improvement plan, which will support the area's long-term development.

Why Turnpike Lane?

Turnpike Lane is a unique and integral part of Wood Green. It has traditional Victorian terraced street properties with more than 100 shops along its length. It also connects the east and west parts of the borough.

In earlier consultations on the future of Wood Green, the community were very clear that they would like to see Turnpike Lane improved.

A recent study into Economy and Employment Space in Wood Green identified Turnpike Lane as an area of untapped opportunity. With investment, it has huge potential to be a busy and thriving street meeting local shopping needs and business needs.

Working together to improve Turnpike Lane

Haringey Council would like to:

- **Deliver community-led regeneration** – we want you, the residents, traders and local stakeholders to participate and become partners in the development and future of Turnpike Lane.
- **Contribute to a safer environment** – Turnpike Lane will be a place where people will have ownership, feeling secure and proud to live and do business.
- **Enhance public spaces** - create a cleaner, greener and safer experience for all users of Turnpike Lane.
- **Secure a legacy of good design** - enhance the unique identity of Turnpike Lane and reflect the vibrant and diverse community that live, work, shop and play there.
- **Improve safety** – design out anti-social behaviour
- **Promote local economy** – support existing local businesses to grow, attract new businesses to the area and work closely with the Turnpike Lane Traders Association
