Subject: Designstion of Pinkham Way
Dear Sir/Madam

I wish to register my concern regarding the change of designation of Pinkham Way from employment use to industrial use.

The site is not suitable for industrial use as it has been previously listed as a green space that should be protected.

The proposed industrial plant will have a serious environmental impact especially as it is virtually on the door step of residential properties and schools.

Any consultation to date has been limited and Haringey Council has not properly sought the views of local people and is indeed once again failing to notify residents of the re-consultation.

The relevant parties seeking to impose this change have been totally unprofessional and need to be held to account. It is disgraceful behaviour which has been exposed by the goodwill of local people who want to see common sense prevail.

Yours faithfully

Mr Ettore Romei
