Subject: Pinkham Way
Dear LDF Team, London Borough of Haringey

As parents of two young children, living just minutes away from the Pinkham Way site, we are strongly opposed to plans for a waste plant.

We have strong concerns about the change of designation of the Pinkham Way site from employment use to industrial use. I understand the council formally refers to this as 'employment land designations in SP8 Employment of the Core Strategy, change of land designation for DEA6 from employment land to locally significant industrial site.'

We object to the change of use the Pinkham Way site on the following grounds:

- The suitability of using the site for industrial use when it has been previously listed as green space that should be protected.
- The environmental impact of using the site for industrial use, particularly when the site is very close to a built up residential area and local schools.
- The limited consultation that has been carried out and Haringey Council's failure to adequately consult local people and inform them of the re-consultation.
- The loss of land for employment use and the impact this will have on creating new jobs.

We are hopeful you will listen well to the objections raised by individuals and families living and working in the local community.

Thank you.

Yours faithfully

Jen Samson and Martin Baker
