Subject: Objection to Pinkham Way.

Importance: High

Dear LDF,

I am writing to express my complete objection to the development of the Pinkham way site.

As a local resident living within a few hundred meters of the site I have received no formal notification of the councils and NLWA plans and re-consultation process or have been made aware of the process and how to object. If anything, this time, it is worse than their first effort to deceive the local residents.

This is unacceptable and amounts to deception on the part of the councils (Haringey and Brent) and the NLWA. ALL local residents within a mile radius of the site (as a minimum), should be consulted as a matter of course, by either mail, e-mail or by door to door representatives. These would be the only true democratic way to gauge the residents opinion on these matters.

I have huge concerns about the change of designation of the Pinkham Way site from employment use, to industrial use. (The council formally refers to this as 'employment land designations in SP8 Employment of the Core Strategy, change of land designation for DEA6 from employment land to locally significant industrial site.')

There are a number of grounds on which I wish to object to the change of use the Pinkham Way site. These include:

- The suitability of using the site for industrial use when it has been previously listed as green space that should be protected.
- The environmental impact of using the site for industrial use, particularly when the site is very close to a built up residential areas and multiple local schools.
- The very limited consultation that has been carried out and Haringey Council's failure to adequately consult local people and inform them of the re-consultation.
- The loss of land for employment use and the impact this will have on creating new jobs in the local area.

Yours sincerely

Max Tomlinson
