

Make a Unicorn Mask

You will need:

- ❖ The Unicorn mask templates.
- ❖ A4 craft card.
- ❖ Scissors.
- ❖ Hole punch.
- ❖ Glue stick and all purpose glue.
- ❖ Pencil.
- ❖ Adhesive tape.
- ❖ String. Approx.:100cms long.

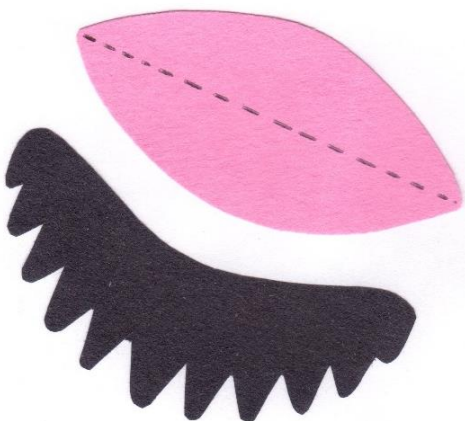

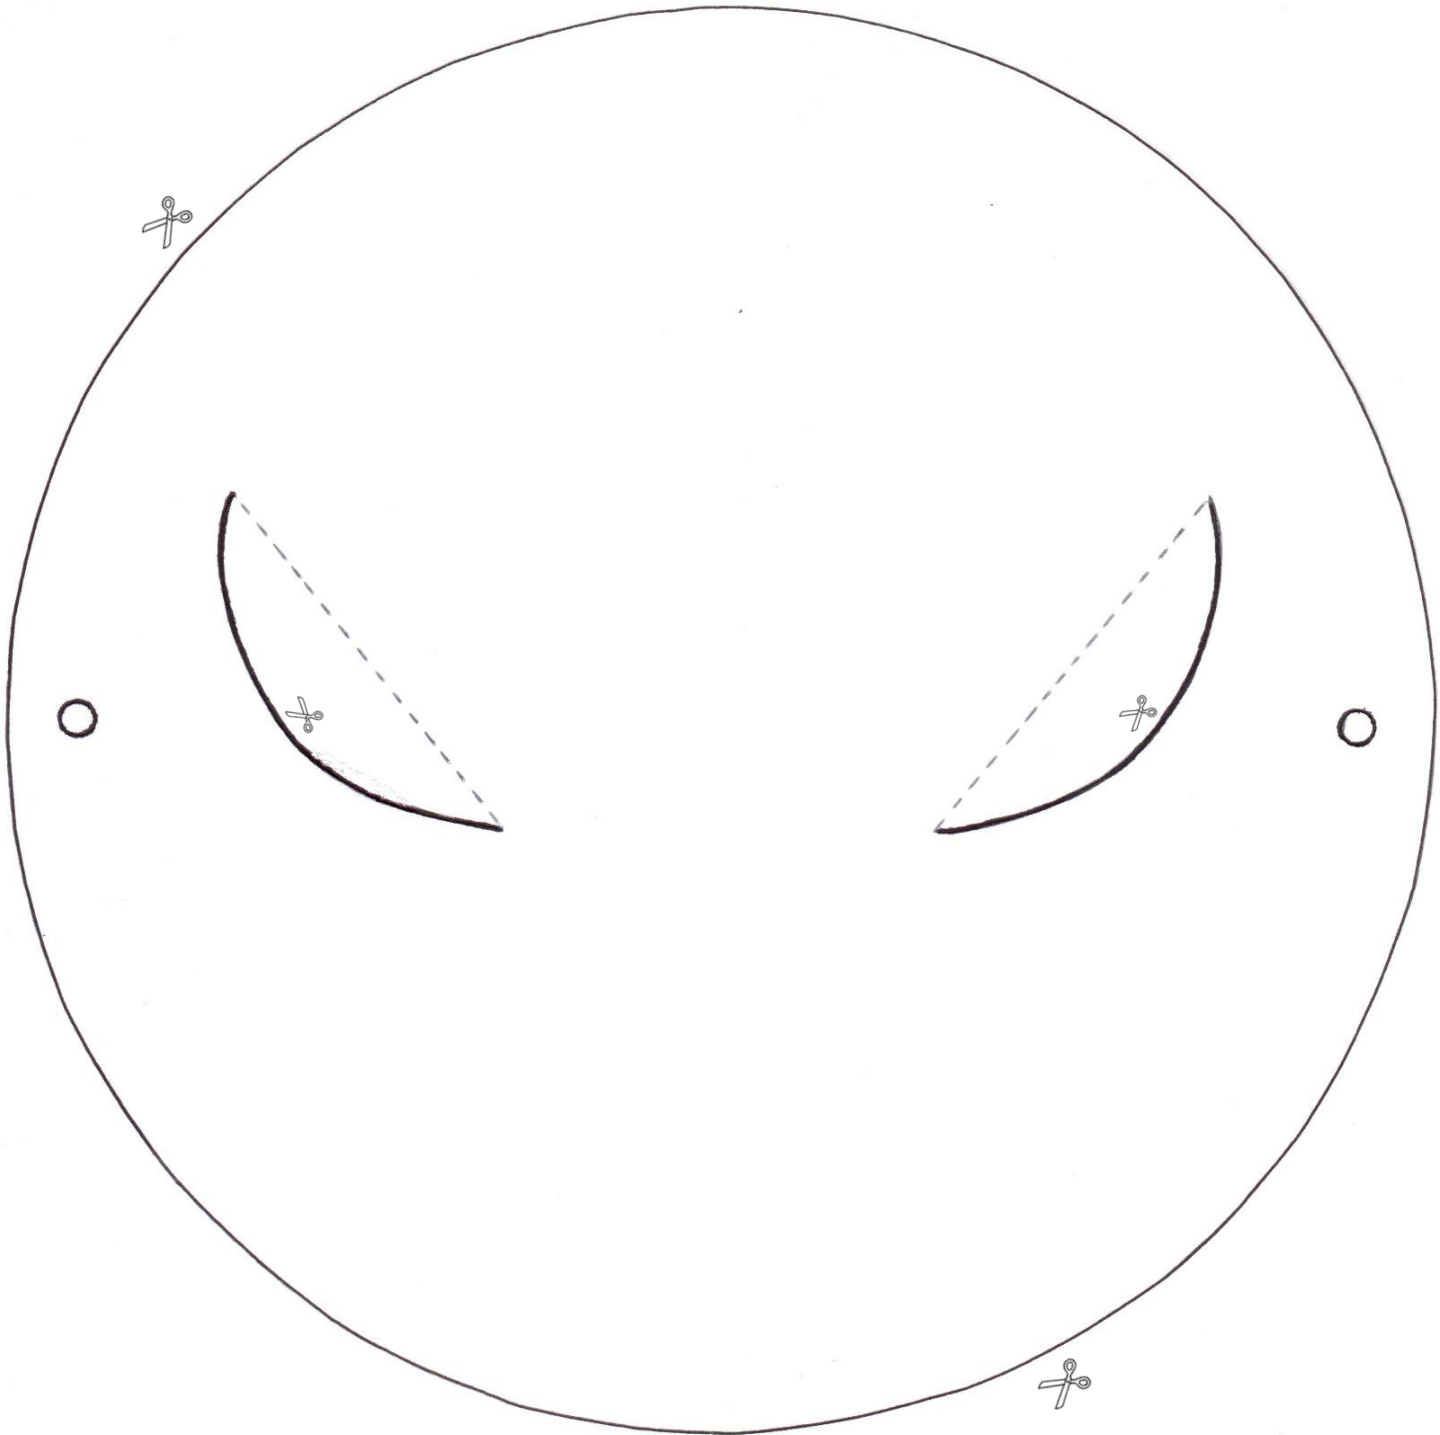

How to create a Unicorn Mask:

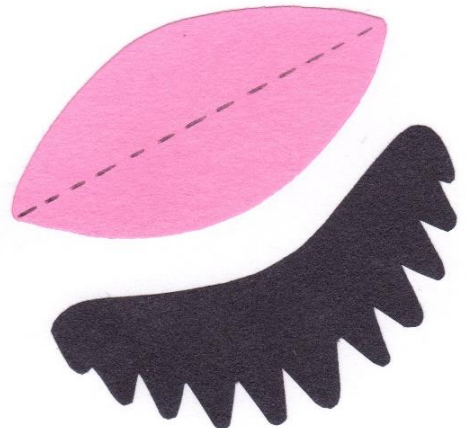

1. Cut along the solid outline of the templates provided. Do not cut along the dashed lines. Draw the outline of Unicorn templates 1 and 2 on to colour craft card (or glue the templates on to craft card), cut around the shapes and decorate.
2. The decorative eye lids, eye lashes, stars, colour strips, ears, nose and horn needs to be in paper format.
3. **The round Unicorn mask template 1:** Fold along the dashed lines upon the eyes. Place the eye lids upon the eye area of the mask. Stick the eye lashes under the eye lids. Pierce a hole on the sides of the mask, to string the mask later on. See photograph 1 and 2.
4. **The Unicorn template 2 (ears and snout):** Fold along the dashed lines. Fold the flaps (flaps: A, B, C, D). Decorate the ears and snout.
5. Use adhesive tape to group the colour strips. Roll the strips around a pencil to create curls.
6. Tape the colour curls in between the ears, on the back template 2, and bring the curls to the front of the mask. See photographs 3, 4 and 5.
7. **The Unicorn horn:** Fold along the dashed lines of the horn. Glue flap E, tuck and stick under flap F, to create a triangular horn. See photographs 6 and 7.
8. Glue the small flaps of the horn and place it over the triangle on the ears/snout template 2. Decorate around the horn using the colour stars. See photograph 8.
9. **Attaching the mask together:** Glue the folded flaps: A, B, C, D of template 2 (ears and snout). Adjust and stick upon the round mask.
10. Cut the 100cms long string in half. Insert the strings through the small holes on the side of the mask and tie a knot. Decorate the mask with the remaining stars.
11. **Safety caution:** When wearing the mask, be sure not to hurt anyone with the tip of the horn.

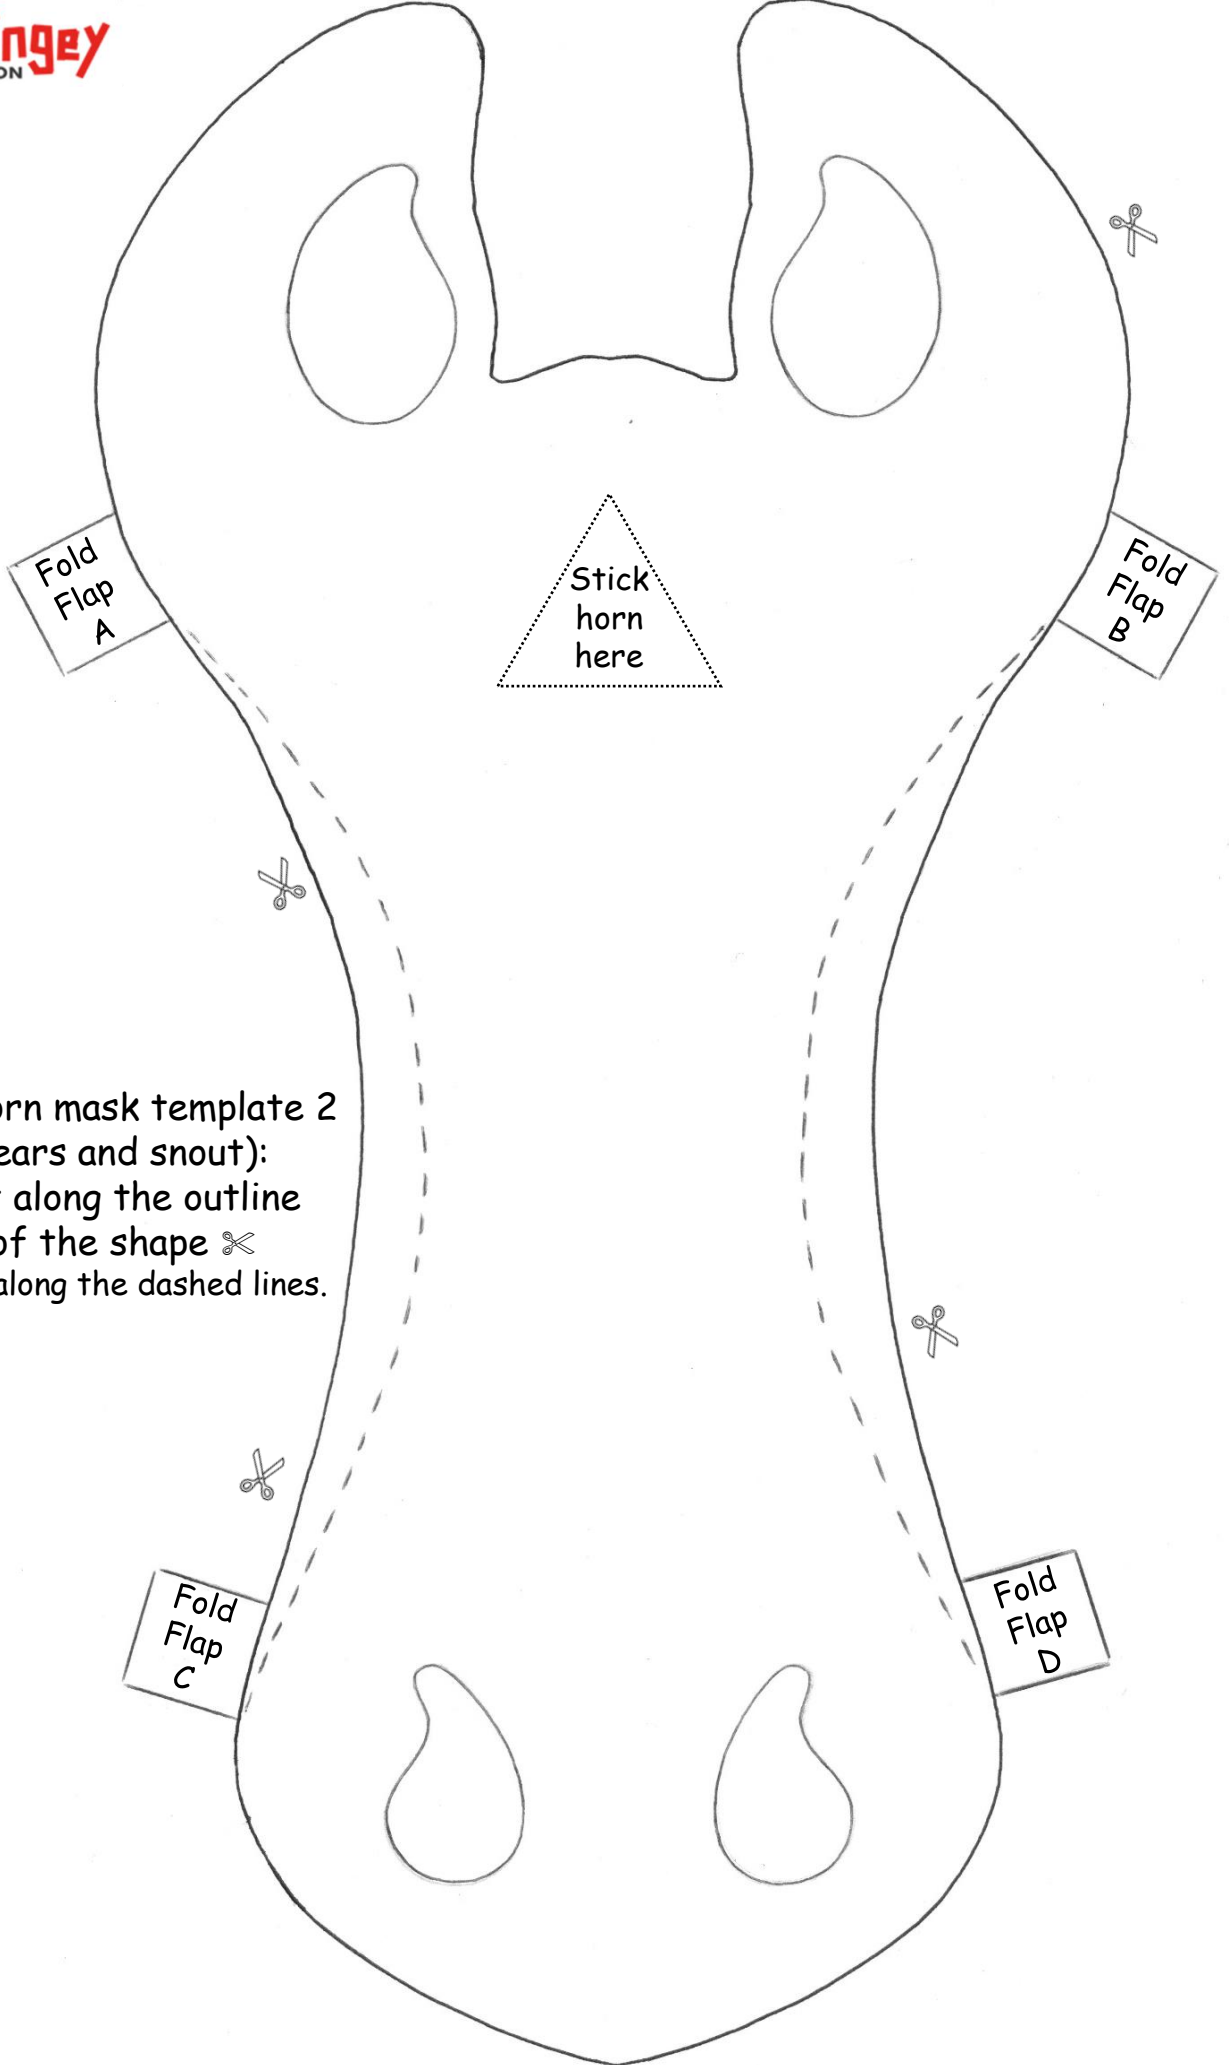

Caution: Adult supervision will be required when using scissors, hole punch, glue and tape. Small parts can be a choking hazard. Do not leave children unattended during project.

Round Unicorn mask template 1: cut along the outline of the shape ✂
Cut along the line on the eye area. Fold along the dashed lines.
