Re: Document CSSD-03

Dear Ciara Whelehan,

We write to profoundly object to the proposed treatment plant which was planned in secret and feel that that the change of land use was not properly disclosed and discussed with the vast number of people affected by the change.

This proposed industrial process is utterly inappropriate and Haringey have not show that alternative sites have been adequately investigated.

We contend that it is not in compliance with the Statement of Community Involvement, which sets out how the Council will involve the community in the preparation of planning documents and in considering planning applications.

Also, we believe that it has not been subject to a Sustainability Appraisal to examine the social, economic and environmental impacts of the policies.

Please make sure that our objections to the changed designation are registered.

Yours sincerely,

Brian Voce & Mary Voce
