1	I'm responding as an individual - go to question 2		(a) A specific ward or district - if so, please specify which one? (if you don't know please just write in your post code)	Hornsey A	Yes	Makes much more sense in terms of community cohesion than being part of Muswell Hill ward	Yes	No change to current arrangement for local and national polls				Thank you - your positive feedback has been noted. Hornsey Ward will remain the same but the district proposals have been updated following feedback from other consultees
2	I'm responding as an individual - go to question 2		(a) A specific ward or district - if so, please specify which one? (if you don't know please just write in your post code)	N8 7RH	Don't know	Are we moving back to the Moravian Church hall if so then YES!	Don't know	As above. Don't know why we were moved to the Kurdish centre makes no sense!		All the roads on the Warner estate should be voting at the same place. I don't mind which polling station but area shouldn't be cut in half as it is now. Are we Muswell Hill or Hornsey it's very confusing	email address supplied	The ward boundaries have been drawn and this postcode is in the Hornsey Ward. The polling station for the post code N8 7RH will be the Moravian Church Hall. The polling stations have been selected based on access and the north part of that area can better access the Kurdish Centre
3	I represent a political party, including as a potential candidate - please specify below	Cllr Gina Adamou (Labour Party)	(a) A specific ward or district - if so, please specify which one? (if you don't know please just write in your post code)	Harringay Ward	No	Harringay Ward should keep the 4 polling districts, because it is increasing in size with the new boundaries and the new development on Green Lanes. The proposal for 2 large and 1 small polling district does not make sense. It disadvantages people in the north and centre of the ward, who will have further to walk to vote. It will be better to 4 more evenly sized districts.	No	Harringay Ward should keep the 4 polling places, because reducing it to 3 will make it more difficult for people with mobility issues and older people to vote. Many of whom like to vote in person. Having fewer places could reduce voter turnout, because they will have to walk much further including on hilly roads. It is important to keep North Harringay School as a polling place, it is well established and will encourage people to vote near to home.	Keep 4 more evenly sized polling districts, and keep North Harringay School as a polling place.	Poling places should not be reduced in inner city areas which usually have a lower turnout in elections. Changes should be made to encourage voting not to make it more difficult, particularly in disadvantaged areas. The equality impacts of any changes need to be taken into account including in disadvantaged areas.	email address supplied	A new proposal for the districts in the Harringay Ward has been prepared and sent to the current ward Councillors for comment. This revised proposal has four districts, reinstating the North Harringay School as a single polling station. This is the version that will be included in the proposals taken to committee
4	I'm responding as an individual - go to question 2		(a) A specific ward or district - if so, please specify which one? (if you don't know please just write in your post code)	White Hart Lane ward	No	1. Residents in the current WH1 are being asked to lose their portacabin and vote in WH2 2. Residents in WH5 who would normally vote just inside the new BC ward are being asked to vote in WH4 - this is too far to walk. Please allow All Hallows to service two wards and two polling districts.	No	see above	see previous comments	all of the polling stations for the new WHL are to the west of the ward :-)	email address supplied	A new proposal for the districts in the White Hart Lane Ward has been prepared and sent to the current ward Councillors for comment. This revised proposal has four districts, reinstating the Risley Avenue School as a single polling station. This is the version that will be included in the proposals taken to committee
5	I'm responding as an individual - go to question 2		(a) A specific ward or district - if so, please specify which one? (if you don't know please just write in your post code)	White Hart Lane ward	No	The lines seem a bit arbitrary. The maps aren't that easy to read	No	Don't know why we can't keep current polling Station at the Scout Hut by Bruce Castle Park	Na	As q3 - keep the old polling station	Na	The Scout Hut is not longer in the White Hart Lane Ward and is being used by the neighbouring ward. A new proposal for the districts in the White Hart Lane Ward has been prepared and sent to the current ward Councillors for comment. This revised proposal has four districts, reinstating the Risley Avenue School as a single polling station. This is the version that will be included in the proposals taken to committee
6	I'm responding as an individual - go to question 2		(b) The whole borough	Tottenham Hale	No	The plan will effect us as we will move from Tottenham Hale to Northumberland Park. All the services we access (school, transport etc) are in Tottenham Hale. We are part of community groups such as Friends of Hartington Park, Health Streets Tottenham Hale and moving ward will effect our ability to work together and doesn't represent how we view ourselves. It would be bad for community cohesion and it doesn't feel fair that we will get pushed out of Tottenham Hale because of the new developments in Tottenham Hale	Don't know					The ward boundaries have been confirmed by Parliament based on proposals from the Local Government Boundary Commission for England. They are no longer able to be changed
7	I'm responding as an individual - go to question 2		(b) The whole borough		No		Yes					The respondee does not agree with the proposals but gives no information on any specific areas or alternative proposals
8	I'm responding as an individual - go to question 2		(a) A specific ward or district - if so, please specify which one? (if you don't know please just write in your post code)		Yes	The ward remains basically the same with some small alterations at the southern border, and in the north-west border. These are compensated by small extensions in the eastern areas making it more homogenous.	Yes	They are spread evenly across the ward.	Yes.			The respondee agrees with the proposals

9	I'm responding as an individual - go to question 2		(a) A specific ward or district - if so, please specify which one? (if you don't know please just write in your post code)	Harringay	Yes		Yes					The respondent agrees with the proposals
10	I'm responding as an individual - go to question 2		(a) A specific ward or district - if so, please specify which one? (if you don't know please just write in your post code)	N8 OHR	Yes		Yes	Good to see the Methodist Church Hall in Hampden Road is retained. I have been voting there since 1960.				The respondent agrees with the proposals
11	I'm responding as an individual - go to question 2		(a) A specific ward or district - if so, please specify which one? (if you don't know please just write in your post code)		No	no info	No	no info	no info	keep horsey library as a voting station for crouch end	email address supplied	Hornsey Library is retained as a polling station for Crouch End - but the polling district has changed. There have been further amendments to the districts following feedback from other respondents, but without a postcode in the response it is not possible to tell if the library will be the respondent's polling station
12	I'm representing an organisation - please specify below	Coleridge Primary School - Chair of Governors	(a) A specific ward or district - if so, please specify which one? (if you don't know please just write in your post code)	Crouch End B - Coleridge Primary School	No	Using the school as a polling station is very disruptive for children, staff and parents. While it is limited to the Early Years, it remains disruptive particularly after a turbulent year of lockdowns. Parents need to arrange childcare for the children or take time of works. This is really not feasible and is an unfair burden on parents. Children have already had enough disruption to their education.	No	Using the school as a polling station is very disruptive for children, staff and parents. While it is limited to the Early Years, it remains disruptive particularly after a turbulent year of lockdowns. Parents need to arrange childcare for the children or take time of works. This is really not feasible and is an unfair burden on parents. Children have already had enough disruption to their education.	Use church halls and other community spaces which don't disrupt children's education		email address supplied	Where ever we use schools we have sought alternatives and feedback from the community on other spaces that can be used. Another respondent has suggested the used of Christ Church Crouch End in place of Coleridge School. A visit to the Church has shown that it could be used as a polling station so the proposal to move the polling place from Coleridge school will be put forward
13	I'm responding as an individual - go to question 2		(a) A specific ward or district - if so, please specify which one? (if you don't know please just write in your post code)		Yes		No	Using Coleridge school is massively disruptive at a time when children have had 18 months of interrupted schooling and last-minute upheavals, bubble measures, restrictions and closure or isolation. Please find an alternative venue for polling to protect the routine of the staff, children and their families who this affects. It's a large number of people who need to make alternative arrangements and it compromises the quality of the education and experience .		We urge you to reconsider commandeering Coleridge school because it's specifically the nursery and reception that gets closed. We are seeing such a rise in covid-related social issues and need to minimise routine disruption for all these families. Try church halls, sports facilities etc instead.		Where ever we use schools we have sought alternatives and feedback from the community on other spaces that can be used. Another respondent has suggested the used of Christ Church Crouch End in place of Coleridge School. A visit to the Church has shown that it could be used as a polling station so the proposal to move the polling place from Coleridge school will be put forward
14	I'm responding as an individual - go to question 2		(a) A specific ward or district - if so, please specify which one? (if you don't know please just write in your post code)	Woodside	Don't know	4 polling stations - As long as they are ALL FULLY accessible. Flooring is safe.	Yes	Yes principle, see Q 2 .	See Q 2/3.	Maybe a polling station more towards Bounds Green Road High Road N22 end. That still covers the Woodside ward .	email address supplied	The four proposed polling places are all central in their district. The remainder of Bounds Green Road is in the Bounds Green Ward. The flooring has been checked in all the venues and no issues were identified. Some reasonable adjustments were identified for one of the venues to smooth a lip in the ramp.
15	I'm responding as an individual - go to question 2			N15 4DU	Don't know		Don't know	No info as yet				The respondent has not given specific information on proposed changes
16	I'm responding as an individual - go to question 2		(a) A specific ward or district - if so, please specify which one? (if you don't know please just write in your post code)	Noel Park	No		No					The respondent does not agree with the proposals but gives no information on any specific areas or alternative proposals
17	I'm responding as an individual - go to question 2		(a) A specific ward or district - if so, please specify which one? (if you don't know please just write in your post code)	Highgate	No	It seems to me that the Library on Shepherd's Hill and the church on the Archway Road, are too close together. There is no indication that alternative venues have been explored eg Jackson's Lane, St Augustine's Church, the Highgate Society in Pond Square. There is no indication that 'pop-up' stations might be used as has been done in Tudor Close.	No	See Above + Presumably the areas marked 24,25,26,27 coincide with the areas labelled A,B,C,D districts. If so it can be seen that only the Highgate Family Centre for 24/A is the only proposed polling place which is towards the centre of the district. The others are all at the edge.	I think we could use more pop up centres. We might use St Augustine's, Highgate Society, Jackson's Lane		email address supplied	Ponds Square and the Highgate Society are not in the borough. Jackson's Lane Centre has been used as a polling station in the past, and has been undergoing refurbishment. It is on the list as a standby back up venue for the library if it is not available. Consideration could be given to St Augustines, but the International Church is an excellent venue and is accessible across the district

18	I'm responding as an individual - go to question 2		(a) A specific ward or district - if so, please specify which one? (if you don't know please just write in your post code)	N8	No	Using Coleridge nursery as a polling station is hugely disruptive to both the school and parents who have children in the nursery at need to find alternative arrangements. At a time when schools learning has been impacted due to COVID-19, the council should look for an alternative site. There are many places in the borough that aren't schools that you be used instead.	No	Using Coleridge nursery as a polling station is hugely disruptive to both the school and parents who have children in the nursery at need to find alternative arrangements. At a time when schools learning has been impacted due to COVID-19, the council should look for an alternative site. There are many places in the borough that aren't schools that you be used instead.	Other public sites, rather than schools and nurseries could be used instead. Consider Homsey Library for example, or a community building.		email address supplied	Where ever we use schools we have sought alternatives and feedback from the community on other spaces that can be used. Another resposdee has suggested the used of Christ Church Crouch End in place of Coleridge School. A visit to the Church has shown that it could be used as a polling staion so the proposal to move the polling place from Coleridge school will be put forward
19	I'm responding as an individual - go to question 2		(b) The whole borough		Don't know		Don't know				email address supplied	The resposdee has not given specific information on proposed changes
